DWA_03.5 Knowledge Check_DWA3.2

_____

1. User story(ies) in Gherkin syntax for the "+" button.

Feature: Increment the Count with the "+" button
  As a user of the Tally Count App
  I want to ensure the count does not go negative when pressing the "+"
  So that I can have accurate tracking of event occurrences

Scenario: The count remains positive when pressing the "+" with count greater than 0
  Given the Tally Count App is open and the count is greater than 0
  When I press the "+" button
  Then the count should increase by 1
  And I should see the updated count on the screen

_____

2. User story(ies) in Gherkin syntax for the "-" button.

Feature: Tally Count App - Interaction with Other Buttons

Scenario: User can decrease count after increasing it using the "+" button
    Given the user has opened the Tally Count App
    And the current count is 2
    When the user clicks the "+" button
    And the count becomes 3
    And then the user clicks the "-" button
    Then the count should decrease by 1
    And the updated count should be 2
